

## DRUG RUNNING CHARGE STIRS UP COMMITTEE

### Opium Commission to Recommend Interna- tional Conference

(By the Associated Press)  
GENEVA, Sept. 21.—The charge that great quantities of harmful drugs are being manufactured in Switzerland and clandestinely imported to the United States and Canada caused a stir during today's discussion by the league of nations opium commission which yesterday decided to recommend an international conference for the promotion of the fight against opium.

Dame Edith Littleton, England, expressed regret that Switzerland, which had not yet ratified the Hague narcotics convention should be turning out drugs based on opium and morphine and smuggling them by ingenious means to the United States. She said that Swiss public opinion should be aroused and that the Swiss government should act promptly in the premises.

### Brings Protest

Gustave Ador, former president of Switzerland, quickly protested against these grave accusations.

He said that Switzerland was doing everything possible in the situation and hoped to ratify the convention next year.

Mr. Graham, the Canadian member of the commission read records which he said proved that drugs were being fraudulently exported from Switzerland to both Canada and the United States.

### Pennsylvanian Speaks

At the close of the session Representative Stephen G. Porter of Pennsylvania, delivered a speech which brought forth much applause. He expressed deep satisfaction over what had been accomplished at Geneva on the opium question and said pleasant things about the secretariat of the league of nations. Mr. Porter remarked that opium was a big question and could not be settled in a minute. But he said by patient endeavor, the goal would be reached.

### Ireland Entered Vigorously

On the stage of league activity today when Marquis McSwiney insisted that a representative of Celtic culture should be added to the permanent commission on international corporation the membership of which will be increased as to include various world cultural groups.

Ireland, said Marquis McSwiney was the natural country to represent the culture of the Celtic whose apostles had contributed so much to European civilization.

## EXTRA SESSION OF LEGISLATURE WILL BE OPPOSED, CLAIM

### Developments in Oklahoma Situation Given in Detail

(By the Associated Press)  
OKLAHOMA CITY, Okla., Sept. 21.—The called meeting of the lower house of the Oklahoma legislature here next Wednesday will be an attempt at an unlawful klan assembly, "because 68 members of the house also are members of the K. K. K.," Governor J. C. Walton declared here tonight in stating that he would oppose the session.

"There will be no meeting of the legislature. The Klan is whipped."

### Jewett Arrested

Charges of riot were filed here tonight against N. C. Jewett, grand dragon of the Oklahoma realm of the Ku Klux Klan.

Jewett was charged with implication in the flogging of R. M. Merriman, who it is alleged was whipped a year ago. The information against the grand dragon was filed in justice court by County Attorney J. K. Wright on the basis of evidence gathered by the military court sitting here.

### Dr. A. A. Maupin, a witness

called before the military court, testified that Jewett had stated to him that he (Jewett) was the one who applied the lash to Merriman. Dr. Maupin testified that he was a former member of the Klan.

### Jewett later was arrested. He

was released immediately on bond of \$1,000.

### Attorney's Admission

### The grand dragon, Maupin

alleged, told the klansmen that "the persons who had been doing things around Oklahoma City were liable for both McAlester and Leavenworth penitentiaries."

### Dr. Maupin in his testimony

before the military court, charged that Jewett had stated to him regarding the Merriman whipping:

"I will have you know that I am the man who laid that on. I led the party. I knew what I was doing. I am the fellow who held the whip and put it on his back and made him confess."

### Merriman had been charged

by Jewett with intimacy with a married woman, Dr. Maupin testified.

### The flogging of Merriman, it

is alleged, took place on March 7, 1922.

## HUGE LOT OF BEER SEIZED BY OFFICERS

### Another Brewery in Chicago Closed by Authorities

(By the Associated Press)  
CHICAGO, Sept. 21.—Three hundred barrels of beer ready for shipment and 2,300 barrels in vats were seized today when federal prohibition officials, co-operating with city authorities in the campaign against bootleggers and beer running in Chicago, closed the plant of the Pfeiffer Products company.

The plant, opened about two months ago, had been under police surveillance since Chief of Police Morgan A. Collins ordered police guards stationed at every Chicago brewery over a week ago.

### Analysis of the liquor seized

showed it to be of illegal alcoholic content, it was declared.

### Warrants for the arrest of John

Hoffman, president; Russell C. Dawson, secretary-treasurer; and Charles Smith and George Key-

ser, vice presidents were taken out by prohibition agents shortly after the brewery had been closed.

### Alcohol Seized

Prohibition agents also seized 75 barrels of alcohol billed from Philadelphia to the Empire Roofing & Supply company as "petroleum."

### Meanwhile the inquiry into

what the police believe is a feud between rival beer running bands and which has resulted in the shooting to death of two men in the last two weeks, proceeded with the police declaring they knew who the slayers were.

### "Red" Golden alleged compa-

ny of Daniel McFall, former deputy sheriff and charged with the killing of one of the beer runners in a fight between rival beer running gangs, was released on a habeas corpus writ when the police admitted they had no evidence against him. Chief of Detectives Michael Hughes intimated that the slaying might be cleared up in a short time.

instituted the campaign against liquor law violators, today revoked the permits of 16 soft drink parlors and saloons.

### It is believed here the report

absolves the Greeks from the accusation of the Italians that the Greeks were negligent in trying to trace the murderers of the commissioners. It is stated, however, that the Italian members of the inquiry commission are filing a minority report substantiating their original charges. It is also stated that the Japanese, British and French delegates on the commission are convinced that the murderers of the Italians were actuated by a desire for vengeance and not by political motives.

## RECEIVERSHIP IS ASKED FOR COLONY OF THE HOUSE OF DAVID

### Several Possible Remedies Suggested to President Coolidge

(By the Associated Press)  
GRAND RAPIDS, Mich., Sept. 21.—Another broadside was hurled at the walls of Shiloh House, "King" Benjamin Purnell's residence at the House of David colony in Benton Harbor when Mrs. Estella A. Meldrim, a member of the cult for 20 years, filed suit in federal court here today asking dissolution of the colony and the appointment of a receiver for the extensive properties. The bill asks enforcement of the claims in excess of \$20,000 and requests an injunction to prevent disposal of the colony funds.

### Charges of abuse, fraud, the

teachings of perjury, deception of civil rights and accusations of immorality are made in the bill against Purnell who is a fugitive from justice being wanted by the state on a statutory charge.

### The Bill's Recital

The bill describes the conversion of Mrs. Meldrim, her husband and their two daughters at Colorado Springs, Colo., in 1903. It asserts that Mrs. Meldrim was requested upon entering the colony to make a complete confession in writing covering her entire life and supplement it with monthly confessions to Purnell. These confessions, the bill alleges were for the purpose of "placing in Purnell's hands such power over this plaintiff as could be gained thereby."

### Mrs. Meldrim in her bill says

she was loathe to believe charges against Benjamin until recently. She says she has lately learned that the "work of Purnell was not devout and useful, but that

### INITIATION AND

#### BARBECUE OF KU KLUX IS INVAD

Injunction Writs are Served Upon Five Alleged Members

(By the Associated Press)  
SAN ANTONIO, Tex., Sept. 21.—Deputy sheriffs invaded the secret meeting of the Ku Klux Klan at the San Antonio speedway where an initiation and barbecue was being held early tonight and served injunctions writs upon five alleged members of the Klan. The injunction which was issued at noon by Judge Robert W. B. Terrell, upon application of the Knights of the Ku Klux Klan, a corporation with headquarters in Atlanta, restrained the San Antonio Klan from conferring the second degree.

### Writs were served on four

alleged members of the organization after the deputy sheriffs refused to be turned by guards who patrolled the inclosure. Another klansman was served by Sheriff James Stevens as he entered the grounds. Elaborate precautions were taken early in the night to prevent klansmen from parading either on the streets of San Antonio or on the public roads. Both the police and sheriff's forces were considerably augmented by special officers who patrolled the streets and roads leading to the speedway. Klansmen were kept moving and officers saw to it no occupant of an automobile was masked.

## FARMER RELIEF MEASURE PLANS OUT NEXT WEEK

### Several Possible Remedies Suggested to President Coolidge

(By the Associated Press)  
WASHINGTON, Sept. 21.—President Coolidge and his advisers still are giving energetic study to the agricultural situation but probably will be unable to come to any conclusions as to possible relief measures before late next week.

Secretary Wallace, upon whom has developed the task of assembling data on the subject, will not have his report ready for several days and consequently the cabinet, at its regular meeting today, made no effort to reach a conclusion.

### Several possible remedies have

been suggested to the executive and these are receiving attention. Others are to be presented next week, among them the reviving of the United States grain corporation to handle this season's wheat crop, but whether any of these will meet the test of the administration policy for relief along sound economic lines remains to be determined.

### One development of the situation

today was the reiteration at the white house that the president still is of the opinion that there exists no reason for summoning congress in extra session. The official view is that so far as the pending questions are concerned they can wait for the regular session which will open in a little more than two months, but it was emphasized that the executive has not entirely foreclosed the question of calling congress to Washington. If there should be any development necessitating its presence here.

### MUCH TREASURE YET

#### IN KING TUT TOMB

(By the Associated Press)  
LONDON, Sept. 21.—Less than one-fourth of the antiquities in King Tut's tomb have been removed, said Howard Carter, one of the discoverers of the tomb in a lecture today before a large gathering of relatives and friends of the late Earl of Carnarvon. The American archaeologist who co-operated with Earl of Carnarvon said many thrills awaited the world when all the chambers of the tomb had been explored.

### "After the body had been

examined and the claims of science satisfied," he said, "the king would be allowed to continue his eternal sleep in his original shrine."

### Describing some of the ex-

quisite articles found in the tomb, Mr. Carter said that the ancient Egyptian art was in many respects superior to that of today, and that, only in the realms of electrical and mechanical discoveries and possibly in the field of medicine had the people advanced since the days of the Pharaohs.

## JAP ACTIVITIES IN RESTORATION MOST INSPIRING

### Possess Philosophy Worthy of Emulation by Others

(By the Associated Press)  
TOKIO, Sept. 21.—The tenacity and resolution with which the people of Tokio are devoting themselves to the task of rebuilding a larger, more substantial and more beautiful city manifest a faith in life and the future as inspiring to the foreigner as the havoc wrought by the earthquake was appalling.

Those who are wont to extract philosophy from such phenomena point out that this latest disaster demonstrates beyond dispute that no catastrophe short of submergence of whole continents or islands such as the semi-mythical Atlantis or the gladiation of entire hemispheres as probably occurred on two or three occasions in the remote past can utterly destroy or break the spirit of a race of people like the Japanese.

### Tremors Continue

In spite of the fact that tremors continue to make wooden buildings creak and those of masonry throb at intervals day and night, new habitations are springing up all over the city. Vast one story barracks of timber and corrugated iron are being erected by soldiers and workmen in the parks and other open spaces. The most spectacular drama incident to Tokio's rebirth, however, is to be seen in the tiny homes that have sprung from the old ones. There is hardly a city block without its building program.

### The main streets are rapidly

being cleared of debris.

### Motor trucks, laden with pro-

visions, construction materials and nurses and workmen in the parks and other open spaces.

### All nationalities are being

treated alike.

### At the same wharf where the

foreign exodus is going on, there are long lines of Japanese with all their worldly possessions tied on their backs, moving slowly on barges out to Japanese ships

DEEP MOVIES  
Movies which show the three dimensions, length, breadth and depth, instead of the two to which they have been confined, are now forecast. The invention not only adds depth to the pictures but gives them a field much larger than that of the pictures now shown.

The camera is larger, has two lenses, uses the principle of superimposing one picture on another and uses film twice as wide as that which has been customary. At first the movies were highly unreal. Lately so much attention has been paid to technique and movie patrons have become so accustomed to the conventions of movie art that one thinks of them as coming close to nature. It is only when one attends a "real play," with real people moving about the stage, and very soon afterward attends a movie, that one realizes the difference and the lack of the third dimension.

RUHR LOSSES

The Germans are admitting at last that their policy of passive resistance in the Ruhr is a failure, and are preparing to make some kind of workable terms with the French.

So far, so good. They were doomed to failure from the start, because France was more determined than Germany and had greater powers of endurance. Germany was, and is, as helpless against military resources of her conquering enemy as France was after the Franco-Prussian war half a century ago. France, seeing the situation clearly at that time, made prompt settlement with her foe. Germany has hoped to escape, and probably hoped in vain, for even the foreign sympathy on which she counted is lacking.

It remains to be demonstrated, however, that France has won by her policy of coercion. She will have forced Germany, after eight months of deadlock, into a new agreement to pay. But it may be seriously doubted whether France emerges as well off as she might have been thru a policy of intelligent conciliation.

A SANE EUGENICS PROGRAM

The recently organized Eugenics Society of the United States has announced its program and discloses itself as an organization of sane and thoughtful purpose. Ever since eugenics first came to general public notice there have been fanatics on the subject suggesting wildly radical methods of improving the human race, as well as fanatics against the subject who considered the suggestion wicked and contrary to religion.

The society mentioned, however, appears to have a program that is both conservative and constructive. It will emphasize first education and research. It advocates only a little cautious legislation such as the fixing of a minimum age for marriage and the establishment of farm colonies for criminal defectives. It favors also mothers' pension laws.

"Another way in which our constitution and government resembles that of Holland is in the fact that the powers from those of the church. This is not true of England, where the church is the mighty power. It was Holland who first developed freedom of speech and of the press. This did not come from England.

CASS FARMER SEEKS DAMAGES FOR FIRE

Alex L. Shaw Sues Amos Buxton for \$3,000 on Account of Destruction of Barn—Three More Divorce Suits Filed at Virginia.

Virginia, Sept. 22.—One of the most important cases filed for hearing at the October term of circuit court is that of Alex L. Shaw vs. Amos Buxton, in which the former seeks to recover \$3,000 damages. Both contestants reside near Cass Siding. Attorney A. T. Lucas represents Mr. Shaw.

It is alleged that during a night in April Mr. Buxton started a trash pile fire that burned down the barn on the Shaw place, and damaged other buildings. Mr. Buxton says he was not responsible for the fire.

Three new divorce suits were filed over the week-end, two alleging adultery and the third drunkenness.

Attorney W. H. Deiterich has filed suit for John Albert Carls of Boardstown for a divorce from his wife, Mamie Elizabeth Carls. The couple were married in Virginia in 1914, and the petition states they lived together until August 1923. The husband alleges that his wife has committed repeated acts of extreme cruelty and that on "divers dates and times since said marriage has struck and abused your orator."

The petition also says: "that the defendant has on numerous occasions in the city of Boardstown at their home and on the streets struck your orator in the face and has used toward him obscene, vulgar and abusive language."

Your orator further represents that the said defendant wholly regardless of her marriage duty and obligation and plighted faith, has for considerable time past and subsequent to said marriage committed adultery.

Laura Colvin, through her attorney, A. T. Lucas, asks for a divorce from Wirt Colvin, of Boardstown. The petition states that they were married in November 1919, and that they lived together until about two years ago. The wife declares that she has faithfully "performed all her duties and obligations as a wife, bearing with her husband's faults and errors, and striving to make their home and family comfortable and happy."

The wife charges that shortly after the marriage the husband began the excessive use of alcohol, and that since that time he has been guilty of habitual drunkenness, totally incapacitating himself from attending to his business.

Mrs. Colvin states that she was forced to go into business for herself, engaging in the operation of a taxi line. She asks for the custody of the two-year old daughter, Betty Marguerite.

Attorney Lucas has filed a foreclosure suit entitled Robert Schand trustee, vs. Chancy Hill, et al.

Attorney W. T. Gordley has filed a partition suit entitled Nellie Kane Moore vs. Nellie Kane Moore, administratrix.

Attorney Deiterich, representing Myrtle Jones Belleville, has filed suit for divorce from Amasa Belleville, charging adultery and desertion.

The same attorney has filed papers in the partition suit of Elton Shute vs. Oscar J. Lamb and Virginia Lee Lamb.

Jontee and Cara Nome Compacts.—GILBERT'S.

## LUTHERANS HOLD ALL DAY MEETING IN ARENZVILLE

Arenzville, Ill., Sept. 21.—The Annual Missionary Meeting of the Arenzville Trinity Lutheran church was held Sunday. Three services were held during the day, all of which were largely attended.

Taking as his subject, "The Call From Macedonia," Rev. Weiss of Quincy addressed the congregation at the morning meeting. Rev. Linse of Danvers, Ill., spoke at the afternoon services; the text being "The Farmer That Soweth the Grain." Rev. Patsch of East Peoria was the speaker at the evening services, his remarks centering around the duties of the church in regard to mission work.

The visitors put over another run in the first half of the ninth inning, but their hopes were shattered when the Greys secured two runs in the last half of the ninth.

Zell and Zell composed the battery for the Alexander nine and Burrund and Zell for the home team.

Next Sunday the Greys will meet the Morgan County Farm Bureau team and endeavor to even the score, as the Farm Bureau nine took a game from them two weeks ago.

## Firm, Plump Flesh!

MANY are the eyes that are turned to gaze with keen admiration on the well developed healthy girl no matter where she may be on the rapidly moving thoroughfare or gliding gracefully over the dance floor.

All eyes turn because we all appreciate the girl with the figure so firm and plump—the girl with radiantly red cheeks, cheeks that carry a touch of roses from nature's own garden—the girl with the sparkling eyes, keen and sharp—the girl with lucidity and the swing of youth.

Not necessarily an out-of-doors girl. Just a girl with ever increasing blood cells. Just a girl filled with the vim and vigor of youth.

S. S. S. since 1926, has stood for increased blood cells. S. S. S. means restored strength—rekindled vitality—added energy. Take S. S. S. and watch the bloom of youth return to your cheeks. Watch that flabby, ill nourished flesh fade away before flesh that is firm and plump. Red blood cells will do it and S. S. S. will build them. It contains only pure vegetable ingredients. S. S. **TELEPHONE CIRCUIT 5,500 MILES IN LENGTH OPENED**

Establishment of a telephone circuit of over 5,500 miles—the longest in the world is the latest achievement of the Bell system in the United States.

This circuit runs between Havana, Cuba, and Santa Catalina Island off the coast of California. It is not an experimental exhibit but an integral part of the telephone system of the country.

The line is carried under the Florida Straits from Cuba to Key West, by a submarine cable 115 miles in length. From Florida it extends up thru the cotton fields of the south and the busy industrial section of the middle Atlantic states to New York. Thence it turns westward to Chicago and on across the Great Plains to Denver.

From there the line winds its way thru the picturesque gorges and amid the towering crags of the Rocky Mountains. Crossing the Continental Divide, and winding thru the Sierras, it descends to sea level at San Francisco, whence it stretches southward among the orange groves of California to Los Angeles.

At Los Angeles a submarine cable circuit of 30 miles transmits the voice of the speaker at far-away Havana across the sparkling waters of San Pedro Channel to the island of Santa Catalina. There the words can be distinctly heard on the ordinary desk telephone and answered practically an instant after they have been uttered 5,500 miles away.

**RECLAMATION PROJECT**

Bellevue, (By the A. The report said that the acreage, which follows Silver creek for 12 miles, could be reclaimed thru the formation of a new drainage district.

The estimated cost of the project, which includes the excavation of 625,000 cubic yards of earth at an estimated cost of 12 cents per yard, would be about \$124,000. The maintenance cost would be 30 cents an acre a year.

## VIVID PORTRAYAL OF INDIAN LIFE IS MADE

Groups Portraying the Various Tribes Being Installed in the State Museum at Springfield

SPRINGFIELD, Ill. (By the A. P.)—Although this restless age has forgotten the weird customs, the ancient traditions, superstitions and laws of the Redman's land, the life of the North American Indian is to be vividly portrayed to those who visit the Illinois state museum.

The Sax-Fox Indian group, consisting of seven figures now being installed in the state museum by George and Paul Marchand, sons of the famous French sculptor and painter, M. Henri Marchand, will portray the primeval life of the tribe which inhabited the region in Illinois about Peoria.

While the seven Indian figures were cast from life by M. Marchand, George and Paul Marchand have designed the setting and will construct it themselves.

**Scenes Presented**

The scene represents the aftermath of an Indian battle in which two of the Sax-Fox tribe have captured a prisoner. The prisoner, compelled, as is the custom of the Indian, to carry the pack back to the captor's camp, is taken before the chief. The chief, squatted before the glowing campfire, will judge the fate of the prisoner. An Indian maiden, standing near the chief, may intervene. If she wishes to marry him, the prisoner's life will be spared, and he will become a member of the tribe. If the maiden refuses him, the chief orders him scalped.

The sculptor, desiring to obtain a genuine cast of the Indians, made his home with the tribe for over a year, living their life and absorbing their traditions and superstitions. Great difficulty was encountered by M. Marchand in getting the Redmen to pose for the cast. Their skepticism and fear caused the sculptor to make unusual pecuniary inducements and after much coaxing and assurance that they would not be harmed, they consented.

The most striking figure in the group is the chief. The natural heavy lines in the face, the perfectly cast arms and hands and the natural position of his folded legs causes the spectator to wonder if the Indian might not rise up. A scenic background, painted by M. Marchand, depicts the forests and distant hills which were life and soul to the Redmen.

The last of the Sax-Fox now live on the "Government" Indian reservation near Erie, New York, where the casts were completed.

Mrs. A. T. Story and daughter of Murrayville were Jacksonville visitors yesterday.

## NEW SCHOOL HEADS IN MANY COUNTIES

SPRINGFIELD, Ill.—With the opening of the new school term, over half the counties in Illinois now have new school superintendents. In spite of this radical change, Illinois is to be congratulated, according to Francis Blair state superintendent of Public Instruction, "upon the fact that so many of the incoming men and women are qualified in a superior way for their work."

"Few people will realize the far reaching character of the change which is being made in the administration force of our country school system," said Mr. Blair. "Over half of the county superintendents who are now serving came into the office for the first time on the first Monday of August. The April primary and the November election of 1922 gave the people of the various counties an opportunity to express their various kinds of discontent against mounting taxes. Sometimes the new candidate who was nominated and elected was just as soundly in favor of school progress as the man who was defeated."

**YOUTHS' CONFERENCE**

## ILLINI LOSES VETERAN HALF

URBANA, Ill.—With the loss of Robinson, halfback, from the 1923 football squad at the University of Illinois, Coach Robert C. Zuppke is left with a nucleus of 11 letter men when it was expected at the first of the season that 14 or 15 letter men would be in uniform.

Robinson turned in his suit after it was found out that his hand, injured during the summer while working, would not be strong enough to allow him to play.

W. H. Perrill, Bloomington, Ohio, a substitute end, has turned in his uniform as the result of his studies falling below university requirements.

Three other letter men are at present ineligible but are working and will take special examinations in an attempt to regain scholarship standing high enough to allow them to play.

The following letter men are in suit: Capt. J. W. McMillen, R. A. Miller, Vivian J. Green, Leonard Umms, B. F. Oakes, R. B. Wagner, C. J. Roberts, linemen; Frank E. Rokusek, end; W. W. McIlwain, Emil Schultz, halfbacks; S. A. Coutechie, quarterback.

How many of these veterans will start in the Nebraska game October 6, is not known but it is probable that not over seven will begin the contest with the Missouri Valley champions. The other positions including three backfield jobs will be held by new players who have never before worn the "blue" in an Illinois game.

## Walter Johnson "Gentleman" of Big Leagues

Umpires, Managers and Players Agree No Finer Character Ever Performed on Diamond

JOHNSON CAME TO THE AMERICAN LEAGUE AN UNKNOWN ROOKIE

WALTER NEVER FUSSES WITH THE UMPIRES

By BILLY EVANS

Washington.—Baseball fans have a keen interest in the big stars of the game.

After every contest in which some of the leading lights appear, there's always a big following outside the dressing room door to get a closeup of the favorites.

What kind of a fellow is So and So? That is a common question asked about the famous men of the diamond.

Perhaps no player has had a more spectacular career than Walter Johnson. Coming to the American League an unknown rookie pitcher, inside of a month he was the sensation of the circuit.

Until the coming of the lively ball most of the glamor of the diamond centered around the pitcher. He was the big hero.

But the lively ball and Babe Ruth have changed things. The slugger is the hero of today in baseball. The player with the healthy wallop in his bat gets the loud applause.

Johnson is Big Favorite. What kind of a fellow is Walter Johnson?

That question has been asked me hundreds of times after Walter would perform some brilliant pitching feat.

"No finer fellow ever graced the major leagues."

In one short sentence that sums up the feeling of every player and umpire in the big show.

"They don't make 'em any better," is the way I heard scores of players size up Johnson, in discussing the great pitcher.

During his long career in the

umpires like to do their work well, just as I like to pitch a good game. I have always felt that the less you fuss with the umpire, the better he works.

This episode in which I was the umpire, best illustrates what a remarkable character Johnson is.

Johnson Settled Dispute. In the ninth inning of a ball game, with two out and the winning run on third, the batsman hit to the first baseman. Johnson went over to take the throw.

He beat the runner to the bag but overstepped it six inches, in such a way that no one on the infield could really see the slip.

I ruled the runner safe, the decision allowed the winning run to cross the plate and defeat Washington. Immediately I was surrounded by every player on the infield, all insisting I had missed the play.

"Bill was right. Get on me, boys, I missed the bag," said Johnson. Then he walked off the field.

Of course that ended the dispute. Perhaps only an umpire can appreciate what a big thing that was for Johnson to do.

Walter Johnson is one of the grandest characters in baseball. If all pitchers were like him I would work for half salary. I wish he could go on pitching forever.

Johnson, despite the many records he has established, is the same modest unassuming fellow he was the day he arrived from Weiser, Idaho, back in 1907.

No umpire can ever recall Johnson making a serious call and no doubt we have slipped many a tough one against Walter.

Fussing with the umpires never helped any pitcher. The

## SWEETSER IS STEP NEARER HIS GOAL

Defeats Bob Gardner Twice Holder of Title—Plays Brilliant Game of Golf

FLOSSMOOR, Sept. 21. (By the A. P.)—Jess Sweetser of New York got a step nearer the goal today in his defense of the amateur golf championship by defeating Bob Gardner of Chicago twice, holder of the title 8 and 7 in the semi-finals. The champion played one stroke better than perfect golf in the morning round and was even with par for the 11 holes playing in the second round, while Gardner slipping at times with various clubs took 81 for the first round and was two over par when he lost at the 29th hole.

Seldom was the champion poorer from the tee than Gardner and he was much more deadly with his irons and his putter. The former champion flubbed two drives, shanked two mashies and missed one three foot putt while he failed a number of times to get down from five to eight feet.

At one hole Sweetser pitched to within four inches of the cup and on the 27th, where Gardner laid him a stylike the champion jumped it with a mashie nickel and holed out a par four.

Sweetser's Opponent. Max Marston of Philadelphia will be Sweetser's opponent in the final round as the result of his victory 3 and 2 over Francis Outmet of Boston.

While Marston did not shoot remarkable golf, taking 81 for the first round and being only a trifle better on the second, Outmet could not get his game in working order and finally slipped on the last few holes letting Marston get an advantage that his game of today could not overcome.

Outmet was not crisp with his approach shots, often falling wide or shot and he missed numerous chances to get home medium length putts. While Marston was

## GIANTS NEED TO WIN BUT FIVE GAMES MORE

NEW YORK, Sept. 21.—The New York Giants today stepped a stride nearer the 1923 National League pennant and their third consecutive championship by trouncing Pittsburgh, one of their principal rivals in two games, while the Cincinnati Reds were winning but one from Brooklyn.

The world's champions now have a lead of four and a half games over the Reds, who are in second place and eight games over the Pirates.

The Giants need to win but five of their remaining nine games to make the winning of the pennant a mathematical certainty, even should the Reds capture all of their remaining eight contests. In that eventuality the Giants would be at the top by one game.

## "BABE" RUTH CHOSEN AS MOST VALUABLE PLAYER IN AM. LEAGUE

NEW YORK, Sept. 21.—George Herman "Babe" Ruth, of the New York Americans, pennant winners of the American League for 1923, today was declared to be the most valuable player to his team and was awarded the American League trophy for the season having received the highest possible number of points and setting a record that can be tied but never beaten.

Ruth was the unanimous pick of the committee appointed to select the American League player who has been of greatest service to his team during the championship season, registering first place on every ballot, one from each of the eight cities in the circuit, for a total of 64 counts.

Announcement of the award was made today by President Ban Johnson of the league.

How complete was the comeback staged by the Yankee slugger this year can be seen from the fact that in the 1922 trophy contest, which was won by George Sisler, of the St. Louis Browns, with 59 points. Ruth was not mentioned among the eight best players of the year.

Eddie Collins of the Chicago White Sox, stood second to Ruth in this year's contest with 37 points. He was named as the best player on the Chicago team by all eight committeemen.

Ruth's name will be inscribed on the 1923 tablet of the \$100,000 monument to be erected in East Potomac Park, at Washington and presented to the United States government by the American League as a memorial to baseball and a Hall of Fame to perpetuate the memories of its greatest players.

The lineup as announced for the kickoff is as follows: Seely, lf; Fitzgerald, 1b; Norris, lg; Cleary, c; Early, rg; White, rt; Henry, re; Clancy, qb; Devlin, lb; Martch, rrb; Geber, fb.

Following is the schedule for the season as announced by Coach Connen yesterday: Sept. 22—Beardstown at Beardstown.

## DEMPSEY-FIRPO GO INEVITABLE THING

NEW YORK, Sept. 21.—Tho a return match between Jack Dempsey and his Argentine rival, Luis Angel Firpo, is regarded by ring followers as inevitable, details of their second clash for the heavyweight title may not be arranged for some time, probably not until next year when the battle is most likely to take place.

Tex Rickard, promoter of the historic battle at the Polo Grounds a week ago has made little headway in negotiations this week with Firpo and Jack Kearns, the champion's manager, despite the willingness of both fighters to enter the ring again.

Firpo is averse to being involved in another long term contract such as he had with Rickard this year. He is willing to fight Harry Wills, negro contender, in addition to Dempsey, but not until next year. He prefers to wait until then before coming to a definite agreement. Kearns, on the other hand, has several tempting theatrical, motion picture and exhibition offers for Dempsey, but declared tonight that he would give none of them serious consideration for some time.

He has three offers from English promoters for exhibition tours of the British Isles and Europe as well as a proposal for a visit to Mexico City.

## EAST-WEST TENNIS GAMES ON TODAY

FOREST HILLS, N. Y., Sept. 21.—The East-West tennis championship the start of which was halted today by rain will be decided tomorrow in five matches, four singles and one doubles.

Vincent Richards, East, will play Howard Kinsey, West, tomorrow in the opening singles match. Pairings for the other three will bring together R. Norris Williams, East, and Robert Kinsey, West; William T. Tilden, East, and William M. Johnston, West; Wallace Johnson, east, and Clarence J. Griffin, West.

In the doubles the East will be represented either by Williams and Watson M. Washburn of Williams and Tilden. Johnston and Griffin will play for the West.

PAPYRUS IS NOT A BEER DRINKER. NEW YORK, Sept. 21.—Papyrus, English derby winner does not drink beer as a stimulant and therefore will be under no handicap because of prohibition in coming to this country to race the best American 3 year old in an international race at Belmont Park on October 20. So declared Christopher J. Fitzgerald upon his return today aboard the Berengaria from England, where as representative of Major August Belmont, he concluded negotiations with Ben Irish, owner of Papyrus for the race.

Fitzgerald asserted that the beer drinking habit attributed to Papyrus probably had become confused with the fondness of Parth, another crack English thoroughbred, for a bucket of ale before going to the barrier.

Papyrus is scheduled to leave England tomorrow on the Aquitania for this country.

HARGRAVE WALKED AND LATER SCORES. CINCINNATI, O., Sept. 21.—With two men out in the last half of the eleventh inning today, Smith walked Hargrave, who scored a moment later on Pinel. It's long triple to left center, giving Cincinnati the first game of the Brooklyn series 4 to 2.

Decatur pitched well after the third inning but was taken out for a pinch hitter in the eleventh and Smith is charged with the Brooklyn defeat. The batting of Olson who got four hits and a sacrifice out of five times up and the sensational fielding of Caveney were the leading features.

Score: Brooklyn 000 010 200 00—3 11 1  
Cincinnati 201 000 000 01—4 9 1

## ROUTT COLLEGE PLAYS AT BEARDSTOWN TODAY

First Game of Season for Both Teams—Coach Connen Gives Out Schedule.

Route College leaves this morning for Beardstown where they will tackle the high school team of that place this afternoon.

As this is the first game of the season for both teams not much is known of the relative strength of the two teams, but a hard game is expected as Coach Connen has been drilling his men hard for about two weeks and it is expected that the team will show the usual fighting pep that has earned them the name of the "Fighting Irish." Several new faces will be seen this year in the lineup as some of last year's players have not yet reported.

Coach Connen will probably take about eighteen men on the trip today.

The lineup as announced for the kickoff is as follows: Seely, lf; Fitzgerald, 1b; Norris, lg; Cleary, c; Early, rg; White, rt; Henry, re; Clancy, qb; Devlin, lb; Martch, rrb; Geber, fb.

Following is the schedule for the season as announced by Coach Connen yesterday: Sept. 22—Beardstown at Beardstown.

Sept. 29—Waverly H. S. at Waverly.  
Oct. 6—Open.  
Oct. 13—Carrollton H. S. at Carrollton.

Oct. 20—Open.  
Oct. 27—Open.  
Nov. 2—I. S. D. on I. S. D. Field.

Nov. 10—Ashland H. S. on I. S. D. Field.  
Nov. 17—Havana H. S. at Havana.

Nov. 24—Open.  
Nov. 29 (Thanksgiving)—Franklin H. S. at Franklin.

## NEW COACH APPOINTED AT ROUTT COLLEGE

Announcement was made late Friday night that Route College has secured the services of Carl French as football coach for this season.

French is well known to local sport followers as he has been playing on the local Indiana baseball team this season. He has had a large amount of experience on the football field, having played as half on the St. Mary's College team in California, and also playing both as quarter and half with the David Rankin Technical school of St. Louis. He will probably take charge of the team on their return today from Beardstown, as acting Coach Connen finds that he has no sufficient time away from his teaching to give this phase of the work proper attention.

## Market Report

STOCK MARKET IS  
RUNNING IRREGULAR

**FINANCIAL**  
 Total stock sales 729,200

 88.96; net loss 10.  
 High 1923 105.38; low  
 86.92.  
 Twenty railroads averaged

 High 1923, 90.51; low 79.53  
 Total bond sales (par value)  
 \$7,146,000.

**NEW YORK, Sept. 21.**—Con-  
 siderable irregularity developed  
 in today's stock market session  
 with the averages showing little  
 change on the day. Professional  
 speculators for the decline appar-  
 ently attempted to depress the  
 general list into new low ground  
 on the theory that the breaking  
 of the previous resistance levels  
 would bring out considerable  
 liquidation, but good support was  
 encountered and the bears con-  
 tained themselves with uncer-  
 vailing isolated weak spots.

Some of the eastern rails and  
 most of the low priced oils made  
 good recovery from recent  
 heaviness, the strength of these  
 issues leading to short covering  
 in other sections of the list in the  
 late dealings. The stronger tone  
 of the oil stocks was gratifying to  
 operators on the long side in  
 view of the additional cuts in  
 crude prices and the omission of  
 the Cushing dividend which was  
 not officially voted after the  
 market closed.

The action that the directors  
 would take was generally known  
 however, earlier in the day.  
 Rumors of early dividend ac-  
 tion by the directors of the Bal-  
 timore & Ohio railroad led to a  
 good demand for that stock which  
 closed 2 points higher at 51 and  
 brought about simultaneous  
 strength in some of the other car-  
 rier issues.

These stocks also were helped  
 by unofficial reports that the  
 Washington administration fa-  
 vors a recasting of freight sched-  
 ules so that some rates will be  
 reduced and others advanced  
 rather than merely a reduction in  
 the tariffs on agricultural prod-  
 uces. Intermittent heaviness on  
 the steel shares was based on re-  
 ports of reduced mill operations,  
 but they showed good recupera-  
 tive power towards the close.  
 U. S. government bonds gave  
 the best exhibition of group  
 strength in the bond market but

### JACKSONVILLE HAS NEW OPTOMETRIST

John Schenz of the firm of Brooks & Schenz of Mattoon, Ill., has recently opened an office in the new Cloverleaf building on East State street. The newcomer is a registered optometrist and has for a number of years past conducted a successful practice in Springfield and Mattoon. Mr. Schenz is a registered optometrist, a member of the state society of optometrists and of the American Optometrist society.

The new office is equipped in the most up-to-date manner, including a Genothalmic Refractor and Unit, a Genothalmic chair and a Universal Ophthalmometer. The Genothalmic Refractor and Unit is comparatively new in the optical world and is designed to detect refractive errors and muscular unbalances of the eye. By the use of the Universal Ophthalmometer astigmatism is detected and its amount and character determined. The equipment also includes a series of colored lenses for the detection of color blindness, and in fact there is nothing lacking which should be found in an up-to-date optometrical office.

### PLAN TO SAVE C. P. EXPLAINED LOCALLY

Members of Patrons General Committee Here for Conference With Citizens—Definite Plan of Finance Proposed—Aid of Investors Interested in the Road Sought.

If the people of Jacksonville and cities and towns along the line of the C. P. & St. L., are interested enough in the saving of the road to purchase a million dollars' worth of stock, the road can be operated. This was the substance of a message brought to local people yesterday by a committee of which H. M. Pindell, Peoria publisher, is the chairman, and representing the patrons of the road. The party of visitors included in addition to Mr. Pindell: Ralph M. Field, business manager of the Peoria chamber of commerce; H. A. Tuohy, traffic commissioner of the Springfield chamber of commerce, and J. B. Searcy of Springfield, attorney.

These men met with directors of the chamber of commerce members of the local C. P. & St. L. committee and other citizens in a conference held at 11 a. m. yesterday at the chamber of commerce rooms. Statements relative to the matter under discussion were made by Mr. Pindell and others in the party. The conference lasted until 12:15, when all in the party attended the Rotary club and being continued until 2:30 o'clock.

Mr. Pindell and other of the visitors finding it necessary to leave the city at 2:40. It was made plain in some of the statements by the visitors that an investigation of all affairs relating to the C. P. & St. L. indicates that some financial interests are hopeful that the road will be offered for sale in parts and not thereafter operated as a system. It was stated that in several instances plans which have been inaugurated for the purchase and operation of the road have been interfered with by other interests. The intimation was made that some of the railroads doing business in the principal terminals of the C. P. & St. L. would like to be rid of that road as a competitor.

In telling of the present project for financing the road and operating it, Mr. Pindell quoted the names of men who are known in the world of big business as having definitely promised that if patrons of the road resident in cities, towns and the countryside along the line will subscribe to a million dollars' worth of preferred stock, which shall at the same time constitute a lien upon the property, that the rest of the money necessary will be forthcoming. It was made clear, too, that the attitude of the court is known to be that if any way possible can be found for the financing of the road as a whole that the preference will be given to such method rather than to the possibility of obtaining a larger sum of money for the stock and bond holders thru the sale of the road in piecemeal fashion.

Mr. Searcy, as attorney for the committee stated that even if the present plan of finance does not work out, that it is the firm intention of the committee to carry the case to the highest courts before permitting the dismemberment of the road.

The project to help with the financial plan for the road will be supplied here if local bankers find that the money invested will be safe and a first lien on the property.

#### ORIGINAL PRODUCTION

With a novel plot embracing romance, comedy and enchanting enough in spots to fit in the tales of Grimm's with musical jingles to accompany it of deliciously lingering themes and with its endless succession of fresh, clean, sparkling situations to ward against any possible moment of seriousness, "My China Doll" comes about as near being a genuine message of happiness as any musical comedy yet sent forth.

The presentation here, at the Grand Theatre next Tuesday night, Sept. 25, of this much heralded entertainment is promised to be the original company and production without one change whatever.

Messrs. Le Comte and Flesher believe that the folks up a little away from Broadway are just as anxious for the best that money can produce and just as willing to pay for it, as are those of the famed White Way—or the Windy City of Chicago, or the metropolis of Massachusetts.

The original production embracing five gorgeously mounted settings is carried in special baggage cars, and the entire personnel of its excellent cast and bewitching chorus will reveal and romp and sing and dance midst the same lavish surroundings on the local stage that they have since the opening night.

#### INDEES TO MEET

**MURRAYVILLE MERCHANTS**  
The game tomorrow between the local Indees and the Murrayville Merchants will be called promptly at 2:45 o'clock. There will be very little changes in the two teams, the most important being the appearance of Wilson, second sacker, from the Virden team in place of Kolhoff, who is on vacation. Ruble will probably go back to his regular station in right field. In case Dick Wheeler is unable to hold his position at the first station, Christopher will probably draw the assignment at that corner. McDaniel will serve as utility and is perfectly capable of successfully filling in at any place he may be needed.

### CONSTITUTION WORK OBSERVED BY ROTARY

Address Made by Senator L. Y. Sherman—Constitution Proposed—Many Bulwarks of Protection for the Individual—Large Number of Guests

The program at the Friday meeting of the Rotary club was in observance of Constitution Week. Some months ago members of the American Bar association because of increasing disregard for the constitution, recommended that a week be set aside for its special study with the thought of familiarizing a larger number of people with at least some of its general provisions.

Former Senator L. Y. Sherman made the address for Rotarians and guests yesterday. His words commanded especial respect from the fact that he is known as a great constitutional lawyer.

Following the luncheon there was mass singing under the leadership of Albert C. Metcalf. Rotarians and guests noticed on the table near the speaker a telephone receiver with an amplifier attachment. The chairman of the day suggested that all things pertaining to the program must be carried on in an orderly fashion from the fact that while Dr. A. H. Doller, president of the club, did not have an eye on the proceedings, that he was "listening in." A radio apparatus had been arranged connecting Dr. Doller's room with the Rotary assembly room. The scheme for the apparatus was worked out by G. A. Sieber and Fred Jameson with the co-operation of J. H. Dial and with very satisfactory results.

**Laws of Self Restraint**  
Senator Sherman emphasized the thought that as each individual life that is worth while develops thru self-reliance, so that in the same manner the constitution embodies all the laws of restraint that the people have chosen.

So he said that a good republic shows the rare quality of self-control collectively. He pointed out one difference between England and the United States in the statement that the constitution of the U. S. is a written document in which the rules of procedure which govern have been collected. Then he gave emphasis to the thought of the protection afforded by the constitution, which among other things guarantees trial by jury. Other provisions are there to protect the rights of the individual.

#### The People Rule

These things are in the constitution because they were placed there by the people themselves and three they must remain until changed by the people themselves thru amendment to the constitution. So he said the constitution provides that the people rule and it also provides the way in which they may preserve their rule. With the constitution preserved there is no danger of mob rule and the constitution presents perpetual barricades against those designing individuals and groups who would destroy the rights of property and various privileges that are guaranteed to the individual thru the constitution.

The senator in closing briefly sketched the history of the constitution which was adopted 136 years ago, showing that but 39 out of the 65 accredited delegates took active part in that first constitution. He said that of the 19 amendments, 12 really constituting a bill of rights were adopted almost simultaneously with the constitution. Then came the 13th, 14th and 15th, which were adopted at the time of the War of the Rebellion, and there have been but four since that time.

Then in closing Senator Sherman pointed to the surprising election figures. He said that less than 50 per cent of those entitled to vote took part in the last national election, and this apathy—this leaving to others the matter of government—he counted a menace.

Senator Sherman cannot make a speech on any subject without enlivening it with picturesque language and bits of satire. This rule was followed yesterday and the Jacksonville audience was greatly interested in his utterances.

### GRACE CHURCH HONORS DEPARTING MINISTER

Rev. and Mrs. T. H. Tull Given Farewell Reception—Wedding Anniversary Also Observed—Church Presents Pastor with Purse of \$150.

More than two hundred members of Grace M. E. church attended the reception in honor of Rev. and Mrs. T. H. Tull held last evening in the church parlors. A spirit of genuine regret at the departure of the pastor and his wife for a new field pervaded the gathering. It was also the occasion of the thirty-fourth wedding anniversary of Rev. and Mrs. Tull, and the church presented the outgoing pastor with a purse of \$150 in token of the high esteem and regard in which he is held by the members, and in appreciation of his four years of faithful service to the church.

The meeting opened with group singing led by Hubert Litter, with Mrs. Edgar Martin at the piano. Following the songs Mrs. Martin played the Lohengrin Wedding March, and Mrs. Ben Lorton presented Rev. and Mrs. Tull with a handsome wedding cake adorned with the appropriate number of candles. Mrs. Lorton is president of the Grace church Pastor's Aid.

Following the presentation of the cake, a cafeteria lunch was served under the direction of the Pastor's Aid. A. G. Cody then called the meeting to order and introduced J. J. Reese, who presented Rev. Tull with the purse on behalf of the church. He dwelt upon the deep appreciation which the members of the church hold for the pastor and his wife and expressed in an appropriate manner the gratitude of the church for their work while here. Rev. Tull responded in a fitting manner, emphasizing the close relations which he had enjoyed with the church and its members and expressing regret at having to leave the friendly atmosphere.

Rev. E. L. Pletcher, who with his wife, was a guest at the reception, was called upon for a talk and responded with expressions of appreciation for the friendship of the Grace church people and of the many Methodistists in the city during his six years of service as district superintendent. H. J. Rodgers was the closing speaker and expressed in a fitting way the regret which the church feels at losing Rev. and Mrs. Tull from its midst. He also made a motion that the new pastor be welcomed to the church with a general reception, and this was carried enthusiastically. The closing prayer was offered by Rev. G. W. Randle.

### STRONG TO FINISH

SEASON WITH ST. PAUL

Harry Strong, who has been visiting relatives in Jacksonville, returned Friday to his home in Minneapolis, accompanied by his father and mother, who have also been visiting here.

During the past two seasons Strong has been holding down a first sack for the Beaumont team in the Texas League and is on his way to St. Paul to finish the season with the American Association team of that city. It is probable that he will remain with that team next season unless he is drafted by one of the major leagues as the Texas League is affected by the draft law.

It is reported that both the Boston and the Philadelphia teams of the National League have been flirting with him and there is a possibility that he will be given a chance to show his prowess under the Big Tent next season.

### WILL REDUCE WHEAT

ACREAGE IN COUNTY

County Agent Kendall Expresses This View Based on Available Figures—Hessian Fly Has Appeared.

The farmers of Morgan county will probably reduce their wheat acreage this fall by about 10 to 20 per cent as compared to the acreage of 1922 according to County Agent G. B. Kendall. The majority of the farmers will sow Turkey red as usual, but quite a few will use Turkey 10-100, which has been developed in the experimental stations of the state and which is claimed to produce a larger, plumper grain. In the southern part of the county a number of farmers still have a preference for the smooth-head wheat on account of the feeding value of the straw, and also on account of there being a greater demand at their market for the so-called soft wheat.

In the counties north of Morgan the Hessian fly is becoming quite prominent and as October 2nd is the earliest date set for the sowing of wheat in this county for protection against the fly, it is suggested that it is strongly advisable to postpone wheat sowing until after that date. Altho heavy rains have greatly retarded the preparation of wheat ground this fall it is believed that there will still be sufficient good weather to get this crop in without taking chances with the fly, by sowing too early.

Several requests for poultry culling demonstrations have already been received at the Farm Bureau office and culling will begin in the very near future.

### GAVE FINE PROGRAM

AT THE GRAND

W. C. Handy and his famous band came to the Grand Opera house last night for a concert program. Sara Martin, colored phonograph star, had a prominent part in the excellent program given. Handy has a national reputation for a certain popular type of musical composition and has gathered about him a group of real musicians. There is a quality about the music these colored performers give which is not found in music from any other source.

There was rhythm and melody galore in last night's program and it greatly pleased the large audience which assembled at the Grand.
